

SAT Guidance

Colleges will either require, not require, or make the submission of a SAT score optional.

Here is an updated list of test-optional colleges: [ACT/SAT Optional List - Fairtest](#)

When considering whether or not to take the SAT for a test-optional college, students should think about whether or not the SAT score will be an accurate representation of your academic ability. Please reach out to Mr. Lemme (joe.lemme@gatheringwaterscharter.org) with questions connected to taking the SAT. Navigating the test-optional process is best managed individually.

Please remember all 11th graders can take a free, actual SAT during the Gathering Waters school day through GW's participation in the NH Department of Education's SAT School Day testing. This testing occurs the last week of March.

For more information about the structure of the SAT, please visit [What's on the SAT – SAT Suite | College Board](#)

For studying material, please utilize the Khan Academy practice that I have created: <https://www.khanacademy.org/join/JMEK7V92>
